## Outdoor Fireplace / Barbeque

- Our outdoor fireplace – barbeque is made of double-sided enameled steel, with stainless steel elements
- The firebox is lined with materials fireproof up to 1,250 °C, resistant to high temperatures
- Because of its construction and composition, the outdoor fireplace – barbeque can be exposed to all weather conditions (rain, snow, etc.)

 **COLOR**

## Outdoor Fireplace / Barbeque

Because of its characteristic design and performance, this outdoor fireplace – barbecue **will blend right into any space, embellishing your yard or garden.** The barbecue's 4 wheels (2 mobile, 2 static) make mobility easy.

Some features of the Color outdoor fireplace – barbecue are **its modern design, quality construction materials, and its ease of use and maintenance.** The firebox is lined with materials **fireproof** for temperatures up to 1,250 °C. Between the fireplace's outside wall and the firebox lining is a **self-ventilating air chamber** which stops heat radiation, thus minimizing chances of injury.
